

1325A1 model woodworking CNC Router is made of high thickness square tube welded bed, imported square rail and high speeding stepper driver , It can do cutting and engraving many materials, such as MDF, Acrylic, Wood PVC etc. And it is widely used in advertising and wood working industries. It is an economic type CNC

Applications

DATASHEET

Model	1325A1
X, Y, Z Working Area	1300x2500x200mm
X, Y Transmission	Helical Rack and Pinion
Z Transmission	BallScrew
Working Table	Vacuum & T-slot
Vaccum Air Pump	5.5 Kw
Control System	Rich Auto A11E Control System
Max. Speed	20m/min
Spindle	Water Cooling 4.5KW
Spindle Speed	24000RPM
Motor & Driver	Easy Servo motor & Leadshine 860 driver
Power	3Phase 380V
Dust Collector	Optional
Overall Size	3.15 Lx 2.65 W x 1.7H (m)
Weight	900 Kg
